hello Bart,

Thank You for reading my objective, evidence based analysis, and reaction to your published article of "Trumpaphobia/Fordaphobia/Truthophobia".

You would be quite surprised if you ventured out of your circle of bohemians, pc delusionals, career spewniversity groupies (and their cult leader ineffectual profs), duplicitous media clowns (watch the video of cnn liar jim acosta having a cry baby suck attack when the thousands of working class Hispanics & Afros in Miami damn near lynch mobbed him), hollywood falldowns, and other assorted imbeciles (ndp & fiberal seditionist hypocrites).

If you did venture out beyond your cloister into the real world and engage real people with jobs and productive businesses & careers that contribute to our prosperous Western Civilization you'd start to understand just how important PRESIDENT Ford & friends are, and just how DELIGHTED we the Moral Majority are to see a stop put to the destruction of our society from outside & within, a stop to:

-iran & nk psychos and their nuke plans,

-militant homo agenda seeking to brainwash our children into dismissing family values & compliance to molestation,

-unvetted illegal invaders that hate us, (like jihadstin's "re-integrated" isis Danforth/YongeSt terrorist child killer sociopaths).

-taxation perversion & squandering deficits,

-assholes like trugrope "oppose my immorality and you're an enemy of Canadian values"... what a fucking shit sucking, shit spewing fucking imbecile!

-dismembering living children being called "women's rights" duh, that one's a no brainer unless you have ZERO morals & ZERO ethical discernment.

-constant virtue-signalling delusion and vote grovelling falsifications, for example, FACT: residential schools were established to deal with a HORRIFIC CRISIS OF DEATH and to rescue abused & neglected native children who were filthy, diseased, starving, illiterate, and would have DIED EN MASSE if left on the squalid fetid reservations, their once semi-functional "culture" decimated by alcoholism and destruction of their means of natural survival.

The FACT is that today natives enjoy a near TRIPLING of their lifespan, there are now FIVE TIMES as many alive as before colonization, and they enjoy a much better quality of life, protections, privileges, opportunities, and OUTRIGHT ADVANTAGES more than at any time in history or any place on earth (as do women, minorities, gays, the disabled & disadvantaged..!!!).

But these FACTS, these GIFTS from WHITE MALE "COLONIAL" CHRISTIANS... the GIFT of Modern Western Civilization & Prosperity, the Human Rights that are founded on the teaching & life example of the INARGUABLY most positively influential person to ever live JESUS, who selflessly gave his life and in so doing founded the world you leftwing supremacist kooks so ungratefully & undeservedly enjoy today... these FACTS are not digestible if you have a dismissive delusional duplicitous hypocritical inability to engage in rational thought and objective reasoning.

As with all lefties, all you can do is tantrum, label & name-call, fear monger & divide, spew bigotry "black this, white that, native this, isLIEmaphobia that, Gay this, women that" blah blah blah... the concept that people are people and should be considered for their words actions and +/- contributions, not for colour/gender or whatever label you hypocrite fiberals try to classify them as, is completely beyond the grasp of your stunted intellect.

So when you are ready to accept reality, and stop printing substance-less attacks on Patriotic &

Accomplished Men of Honour such as PRESIDENT Trump, when you are ready to offer some valid discourse & dissent that has reason & evidence to back your opinions, when you can provide some rational grounds for your criticism, do let me know, I'll be pleased to listen and consider your views. But as long as you engage in the vapid, vacuous silliness of crummy intellect, you will be taken to task for it.

So in closing Bart: It's time for You and your dishevelled crew to grow up, join the real world, smell the coffee, face the music, detox & rehab if that's your problem, and start contributing to society if you somehow think you are better & more virtuos than the wonderful Doug Ford, PRESIDENT Trump, Ezra Levant, Viktor Orbán, Nigel Farage, Tommy Robinson, Kevin J. Johnson, Pat Conlin, Marine LePen, Maxime Bernier, Nikki Haley, Gov. Rubio, and so many more Valiant Crusaders in defence of our civilized prosperity & decency.

As it stands you & crummy should go live in yemen or libya or north korea or a swedestan NoGoZone or venezuela or iran or zimbabwe or somolia or south africa for a year or two. If you even manage to survive with your attitude of know it all superiority you may just return with some respect for our DEMOCRACIES that put great defenders of Freedom in power, after giving duplicitous virtue signaller hypocrites like crapleen wyn, obama & jihadstin trugrope a fair try and rejecting them in disgust for their blatant incompetence, sedition, dereliction of duty, and duplicitous disregard for the Safety & Security of our Great Nations.
